GUIDELINES FOR PROPER OPERATION OF AIR CURTAIN DESTRUCTOR

1. That the air curtain destructor shall be operated properly and used for burning only wood.
2. That wood shall be carefully fed to the air curtain destructor so the wood is burned in the pit below the air curtain.
3. That the ash shall be removed from the air curtain destructor as necessary and the ash shall be covered to prevent blowing.
4. That the air curtain destructor shall be kept in continual good repair (air volume, air direction, pit dimension, and operating temperature shall meet design specifications).
5. That a salvaging operation shall be permitted under the following conditions:
 - a. All waste paper shall be cleaned from the salvage area and placed in the waste container by the end of each day's operation.
 - b. All waste wood shall be burned in the air curtain destructor by the end of each day's operation.
 - c. All cardboard shall be removed from the property or stored in enclosed trucks or containers at the end of each day's operation.
 - d. That blown waste paper, plastic, etc., shall be cleaned up at the end of each day's operation.
 - e. That the volume of solid waste salvage material accepted shall be regulated to insure a., b., c., and d., can be complied with.

LANDFILL

1. Only dry inert industrial, commercial, or household material may be accepted. Any garbage or other solid waste that requires daily cover must be rejected.
